No one chooses to use catheters everyday, but for people who need to, we promise to provide great products, services and support from your doctor’s office to your home, your life and anywhere you love to be.

Visit us at BardCare.com to join a community for inspiration, resources and support.

Delivering an all-in-one solution

Combining the benefits of a Magic³ silicone hydrophilic intermittent catheter with the protection of a closed bag system, the Magic³ Touchless™ System provides you with comfort, convenience, and safety. You don’t have to second guess your decision. It’s the right choice.

Magic³ Touchless™
HYDROPHILIC INTERMITTENT CATHETER SYSTEM

| **Three-layer silicone catheter**
Cross section of Magic² Touchless Catheter | Ultra-soft outer layer designed to help maximize comfort
Firm middle layer for easy handling
Pliable innermost layer for easy navigation | Designed to help reduce the risk of UTIs
Insertion tip positions the catheter in the urethra, decreasing bacterial transfer from the meatus to the catheter to help reduce UTIs. |
| **Control**
SURE-GRIP™ sleeve allows catheter to be firmly grasped and advanced. | **Confidence**
Collection bag is durable, virtually eliminating the risk of leaks. | The bag’s tapered neck design decreases scratches associated with sharp corners. |
| **Choice**
Insertion tip and perforated tear feature offer multiple drainage options. | **Easy to handle**
Built in handle is designed to aid in handling and draining of bag. | Illustrations of primary instructions printed directly on drainage bag for quick reference. |

In a survey of 99 male intermittent catheter users, 93% did not feel any pain during insertion and removal of the Magic³ catheter.
